

Five Color Magic

Standard spell lists reorganized into five schools

This is a list of spells from all four standard classes combined. Duplicates are removed and reversed versions are now separate spells. The spells have been sorted into five colors representing spheres or schools of magic; a sixth colorless school represents basic magical functions that wizards of any color can use. Magic-user characters must be aligned with one specific color and can cast only those spells and the colorless spells.

Colorless	Black	Blue	Green	Red	White
